A Cháirde,

My name is Éibhear Ó hAnluain.

I have been working in the IT industry since 1994, initially as a software engineer, more recently as a consultant IT systems architect.

I am responding to this consultation in my personal capacity. My views here are not necessarily those of my employer, nor those of any of my employer's clients.

In this submission I am seeking to highlight 3 core concerns with respect to *issues of online harassment, harmful communications and related offences*.

- The nature of the online services from the perspective of small operators
- The potential damage legislative measures can have on small operators of online services.

I can be contacted at the postal address, e-mail address or 'phone number provided above, and I look forward to your consideration of my contribution.

Is mise, le meas,

Éibhear Ó hAnluain
